

IT Project Manager - 8+ Month Contract

[Apply Now](#)

Company: Protective Industrial Products

Location: Italy

Category: computer-and-mathematical

Job Title : Project Manager - EMEA

Location : Altavilla Vicentina, Vicenza, or Venice, Italy

Contract Duration: 1 year with potential for extension or conversion to full-time employment

Job Description:

We are seeking an experienced Project Manager to support of the EMEA VP of Operations, assisting with multiple high-level projects including the implementation of the Microsoft Business Central ERP system.

Key Responsibilities :

Oversee the planning and implementation of the Microsoft Business Central ERP system across various European countries.

Manage large, complex, multi-country projects, ensuring successful delivery within set timeframes and budgets.

Coordinate cross-functional teams in IT and Operations, along with business teams, to achieve project objectives.

Create and implement organizational change management plans for ERP and other system roll-outs

Assist with other large, pan-Europe projects in support of future needs.

Serve as the primary contact for project communications, effectively managing stakeholder expectations across various levels of the organization.

Develop and maintain project plans using tools such as Smartsheet, Jira, and Asana, encompassing resource allocation, timelines, and risk management.

Regularly monitor and report on project progress to senior leadership, identifying and addressing potential issues or delays.

Conduct and lead project meetings, providing clear and concise project updates.

Influence and effectively work within a matrix, cross-functional team environment.

Foster a collaborative work environment, promoting teamwork and open communication.

Qualifications :

Minimum of 5 years of experience in project management, with a proven track record in delivering large, complicated, multi-country projects.

Experience in leading both IT, Operations and Finance projects, particularly with ERP and warehouse management systems.

Excellent leadership skills, capable of managing and inspiring diverse, cross-functional teams.

Experience integrating new and diverse organizations into a rapidly growing business unit.

Strong communication skills, proficiency in English is required, with fluency in French, German, Italian, or Spanish being advantageous.

Expertise in project management tools like Smartsheet, Jira, and Asana.

Ability to work effectively with staff at all organizational levels.

Travel throughout Europe and the UK required.

Bachelor's degree in IT, Operations Management, or a related field.

PMP or Prince2 certification is preferred.

This is a significant opportunity for a dynamic, results-driven Project Manager to make a substantial impact on our organization. If you have the relevant experience and qualifications, we welcome your application.
